About Me should include:

- personal interest
- my background, website background,
- CV (pdf or) ~~set~~ outline skills.
- portrait / headshot.

Contact me :

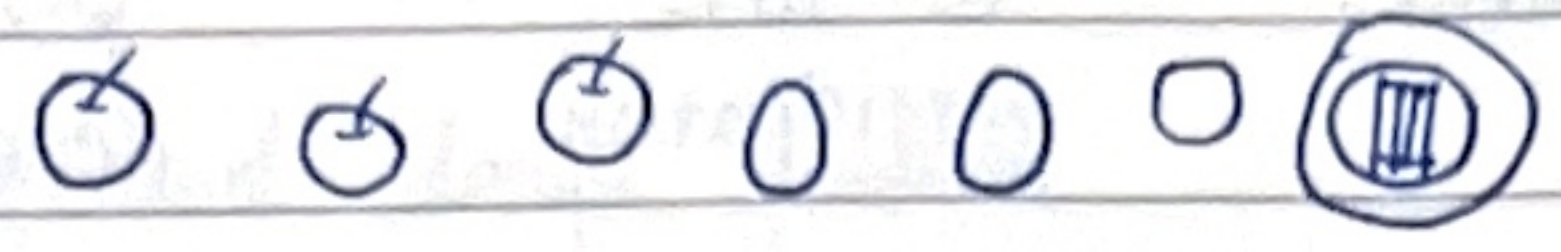

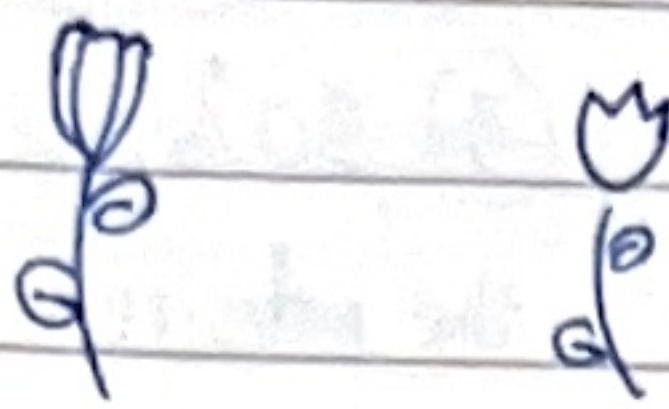

- email
- mobile phone num
- social media links
- contact form.

Σ03

Identify target audience : software engineer recruiter ^{potential} employer
university student who study IT
18-25 years old who is in IT industry

One Minute Pitch

Hello, my n

UX UX UX

- ① sitemaps
- ② paper prototypes
- ③ wireframes
- ④ mock-ups
- ⑤ interactive prototypes
- ⑥ staging site.

Balance user's need, content, context

SITEMAP

Day Two Lecture

Font & spacing

Visual Research : speculate on style for a project

↳ use scratch pad to keep track of all inspiration
in figma

↳ Use section tool on the top left

TASK : design reference for elements :
① typography ② colour ③ layout ④ & buttons
desktop phone
tablets.

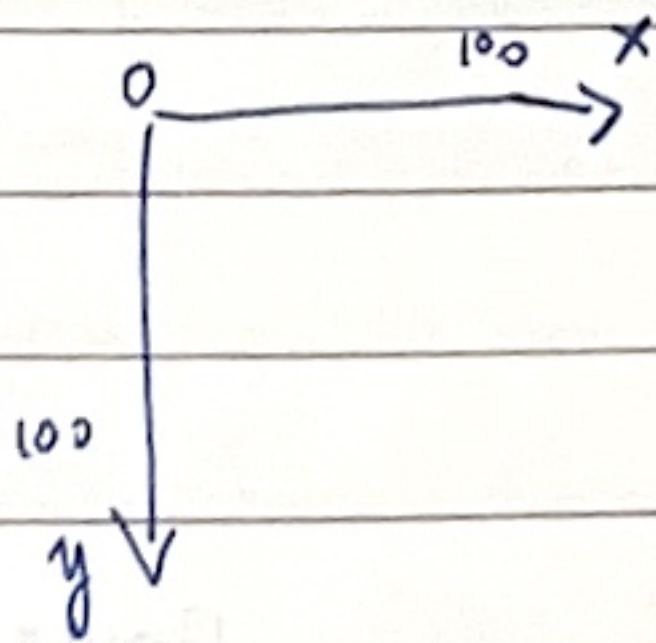

Section 1 Visual research 30min ✓

Responsive web design : website should adjust seamlessly to the device on which it's viewed

mobile design first

Breakpoint : breakpoint at 768px means if screen has width less than 768px it will switch from desktop to phone vision.

Fold : Everything you see in the homepage before scrolling.

★ pixel positioning does not adapt to different screen sizes

Use 'Chrome's DevTools' is fantastic to test this problem.

Fluid layout : allow elements to resize in relation to screen

e.g. the table will always be 30% of the screen size.

Fixed layout : fixed width elements.

will require horizontal scrolling on mobile.

The optimal line length for a website is 40-75 characters to accommodate various screen sizes.

★ link logo to homepage

★ ≡ Hamburger menu can be useful.

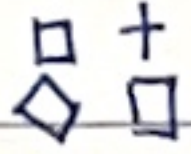

TASK: draw desktop prototype 20min

Section 2 responsive web design

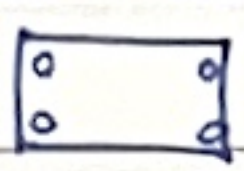

Wireframing with figma.

★ choosing 'frame' from the tool bar on right-hand side.
→ e.g. iphone 13

TASK: Use figma to draw the mobile and desktop draft design. (do not need font or color)

★ Plugin in figma : top left 'PHOSPHOR Icons' 

★ Holding on 'ctrl' key to resize frame

★  or  can have rounded edge by drag the ~~white~~ white circle on the edge 

Section 3 wireframe.

Day Two Class

★ Give credit.

★ Captions and Attributions.
flow of story telling

Project - People - Contact - About.

industry context

★ TASK

use a spreadsheet to record what types exist for a project in similar website

e.g. project name.

Year presented.

project narrative guided by?

ALL MY
WORK

Section 1

★ Style scape

Colour & light Green and Blue

is there a requirement for the size of stylescape.

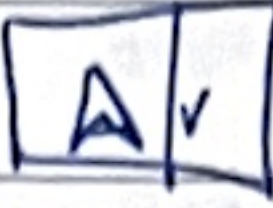

Includes:

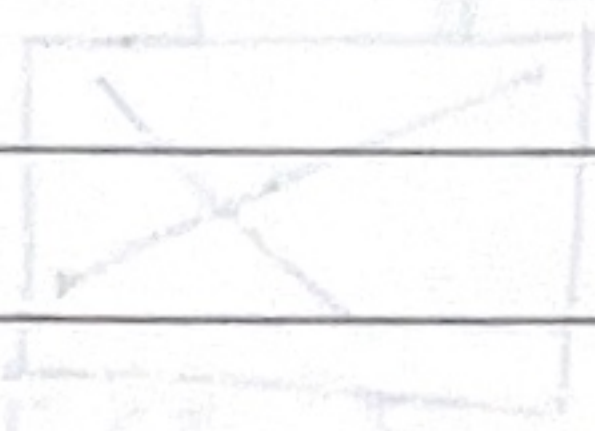

- ① colour
- ② Typography (fonts & type styling)
- ③ Logos
- ④ Textures, shape and pattern
- ⑤ Layouts
- ⑥ (User Interface) : buttons, menus, forms.
- ⑦ icon, illustration styles.

Tips: balance 'mood' with 'practical'
Crop image to highlight detail and
refine visual cohesion.

layout grid
★ 8 pixel square 6 row 24 columns

★ select image: under 'fill' change fill to 'crop'
在100%的左边

★ RESIZE Style scape: Click  on the top left.
select  scale.
Hold 'shift' then resize it.
or
'Alt'

Day Three Lecture

→ type: convey written language in text. typeface: 字体 e.g. Times New Roman, Arial

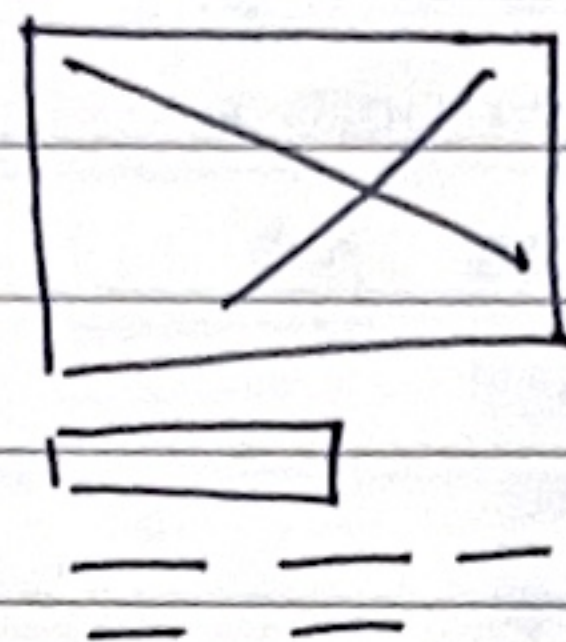

font: Times New Roman 12pt Bold.

Typograph: evoke emotions, convey tone and shape our understanding of a message.

→ 'Gotham' ← font 好看也许可以用

'Humanist Serifs' ① inclined, round.

'Humanist Sans' slanted stress stroke contrast

'Sans Serif' 用在 Scrolling text

TEXT TEXT TEXT

'Contemporary sans'

S

用 title / signature.

'display' 3D

tips

→ ★ Source unique free typefaces options.
define the theme before "font shopping"

professional # friendly # modern

open # Humanist # approachable

formal # noticeable.

→ Type Hierarchy

weight / style / width

Title

subtitle

project title

BODY

button text. → call to action.

66

How hard
can it be

Secondary headline: to contrast and pair up.

★ Tips:

to have matching x-heights,
to ensure visual harmony
and ~~content~~ complementary
proportion.

'Urbana' + 'Gotham'

TASK : ② Find suitable font : typewolf.com

fontsinuse.com

fontsinthewild.com

① Develop typeface brief :
1. personality friendly open-mind
2. values light-heart authentic modern
3. theme. blue cold.

③ TEST In figma.

① Brief

Neutral Progressive friendly familiar
neat

③ Test

Buenard.

Colour theory

Primary Colour

Red Yellow Blue

Secondary colour : combination of two colours

Tertiary : 3 colours.

“Colour Primer/
Measurement”

- Hue : describe and categorises a colour's key underlying property.
- Saturation : measures a colour's purity, from most intense to grey
- Brightness : measure colour's tonal value on a scale of dark to light or black to white

★ | Colour Harmony | ★

• Complementary 面又插面两色

• Analogous 相邻三色

• Triadic 三角 (各相隔 3 色)

• Split complementary ▽

白 粉 蓝

Design System

- components are reusable elements like buttons, menus, cards, and forms, built from the foundations for interface consistency.
- Font style's [Font] [Size] [Spacing] [Weight]

Brand board

Minimum Requirement

Logos	Typography	Colours	UI elements
primary logo	H1 Page Title ✓	✓	① Primary Button
secondary logo	H2 Section Title ✓		② Secondary Button.
submark - small usage	H3 subhead / labels ✓		highlight version
	Navigation links ✓		default state
	paragraph ✓		hovered state
	记录:		Navigation bar
	Typeface 名字		
	Size: 68px		
	line height: 72px		
	tracking: -1.5%		

- # 'Auto layout' of grouped object can 调整 item 之间的距离
- # Change 'Hug' to 'Fixed' under frame after select grouped object.
then adjust 边框 of the frame using '三' under auto layout.

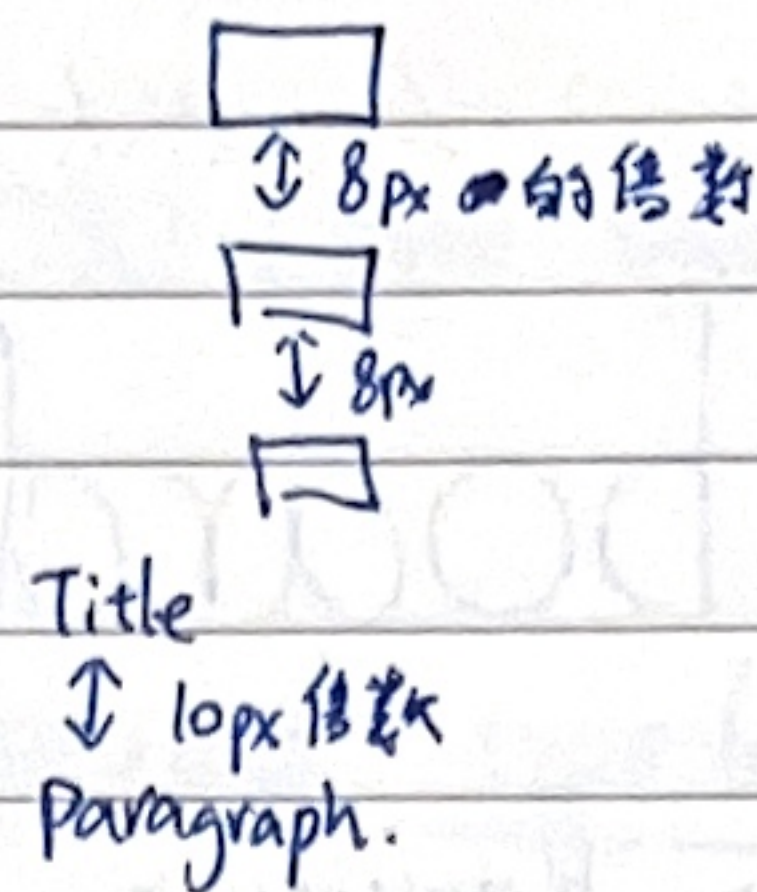

- # add a frame to the text 右击 \ 选 auto layout
- # 换位置 选中两个, 击打左右键
- # 选一个 text 右击后选 outline stroke. 然后 ungroup 字母们. 我可以换掉其中的字母

DAY four lecture

★ Grid System ★

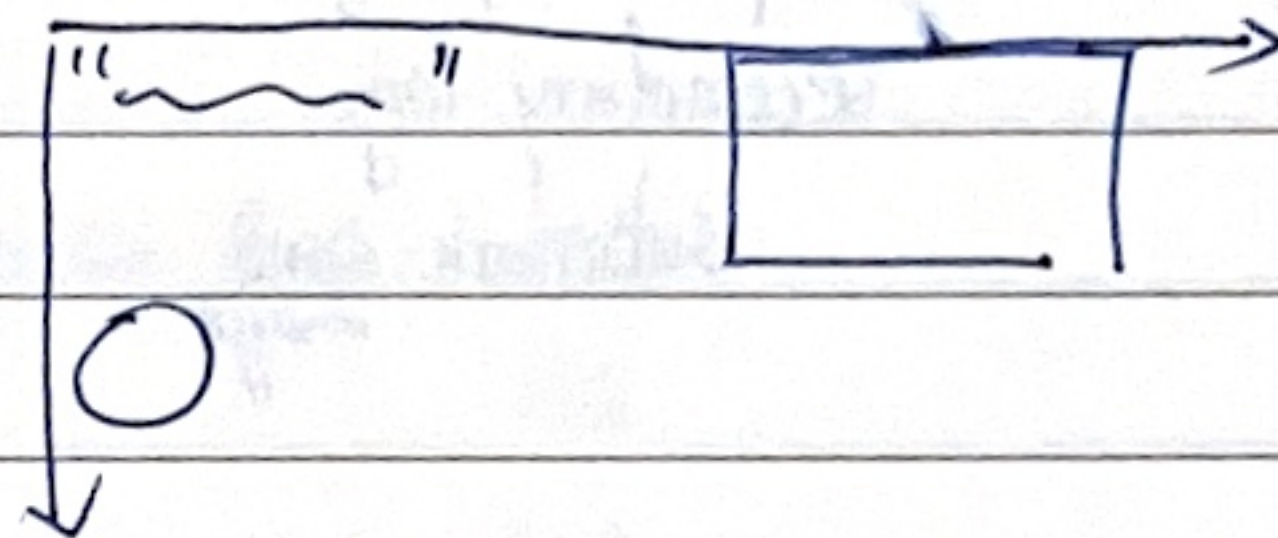

Web grid: tends to use columns only.

- ▲ A 12-column grid is often industry standard.
- ▲ Use consistent vertical spacing

- ▲ Use key line

用图片 + TEXT to create key line

Column grid: ^{网页变小时, 内容大小不变} fixed grid: the margin expand or shrink.
responsive grid: column width response to ^{Screen} size changed.
^{网页变小时, 所有东西都 scale down}

Google chrome / view / develop tool / 
/ dimensions responsive

Search: commonly used display resolution.

- related info should be close to each other
- item is in a line : law of continuity.
- Set up Standard.

D Grid and Auto layout + Figma D

Desktop

- Start with 12 columns . Margin $\rightarrow$ 30 px +
Gutter $\rightarrow$ 20 px +

- 选 Layout grid 将 grid 改成 column : count: 12

margin: 30
gutter: 30

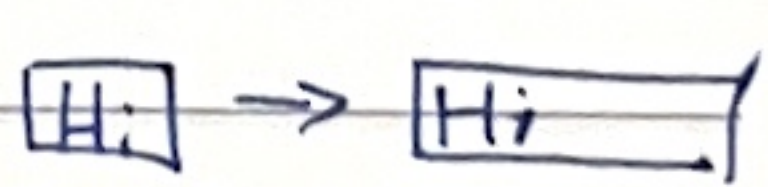

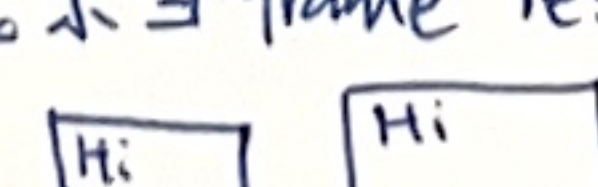

Mobile

- Start with 6 or 4 columns . Margin $\rightarrow$ 20px
gutter $\rightarrow$ 10px +

Group

- the width and height determined by items contained.
- the group is transparent [can not fill colour in background]

Frame

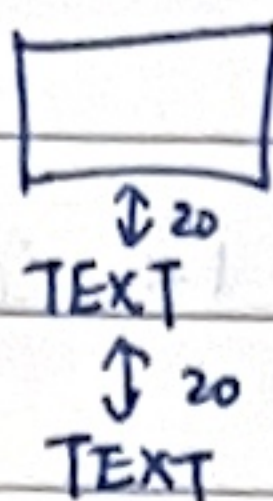

- 选中多个 item 右击后选 frame selection.
- 加颜色 under 'fill' on right-hand side. ^{加边框} under 'stroke'
- Resize frame independently of items 
 - item 的 position x and y is relative to the frame parent
not to the grandparent frame.
 - item 的 'constraint' 表示当 frame resize 时, 它们会粘在哪个边上
if 是 Top left, 则 

□ Create a button

Rectangle + Text 变 group 选 Auto layout.
这样 text 变时, button 也会跟着 grow

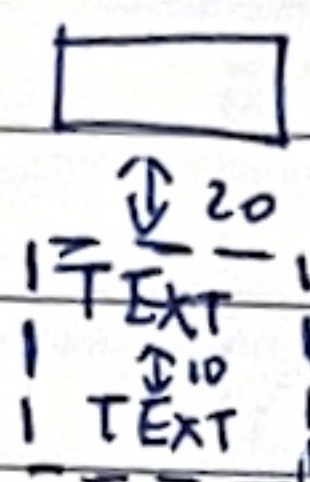

□ 间距

选中多个 item, 勾选 auto layout, $\equiv$: 20

□ 间距里的间距

将 frame 里想调整间距的 item 都选上并成立一个 frame,
再去 auto layout, $\equiv$: 10

□ 一个好习惯, 将 frame 名字命名好. 这样后面更改时会清晰很多

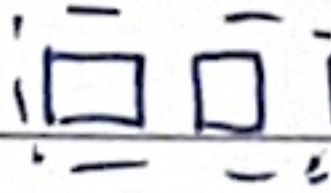

□ layout on page.

在大 frame 里, 勾选 auto layout $\equiv$: 0

|□|: 30

$\equiv$: 0.

边框间距 margin 设为 30.

再选中小 frame  再将 <> 从 Hug 改为 filled.
image 同理

Day four class.

Mock-ups page : home / project / any page.

mobile & desktop.

in figma, interactive function is annotated.

Animation annotation!

- An animated contact button encouraging interaction.
- 开始不转动, user enter text 才开始 scrolling?

Day Five Lecture

- framer publish website at no cost. (\$)
- Journey map.
- Copy writing
- SEO
 - Search engine optimisation
 - Enable search engine indexing
 - use clear, descriptive page URLs (e.g /about)
 - Meta-tags.
 - Meta-title Fiona Lynch | Interior
 - Meta-description. Fiona Lynch office
 - ↓ 在搜索时出现
 - ↓ can be set in framer
 - Alt-text 照片的 alt text allow search-engineer a blue sky image.
 - social media marketing.

问题: colour blending ① colour.

tab. - ② Sitemap 应该 Projects tab.

今天要交的 draft design docu, 能有空吗?

③ pixel mark?
